Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks	2 Marks

Customer Journey Map

Map the user's experience with FitBuddy from first setting a fitness goal through completing workouts and adjusting the plan. Capture their actions, touchpoints, thoughts, and feelings at each stage.

Journey Area	Stage 1 Set Goals & Build Plan	Stage 2 Follow the Plan	Stage 3 Review & Adapt
Actions <i>What does the customer do?</i>	Sets a fitness goal and shares experience level, schedule, and available equipment.	Reviews the day's workout, completes exercises, and records sessions or feedback.	Checks progress, notes what worked, and updates preferences or missed sessions.
Touchpoints <i>Where do they interact with FitBuddy?</i>	FitBuddy onboarding; goal, schedule, and equipment inputs; Gemini-generated plan preview.	Personalized workout plan; exercise instructions; workout completion and progress log.	Progress summary; feedback inputs; Gemini-assisted plan adjustment and updated schedule.
Customer Thought <i>What is the customer thinking?</i>	"Will this plan suit my fitness level and the time I have?"	"What should I do next? Can I keep this routine up?"	"Am I making progress? What should I change or practice next?"
Customer Feeling <i>What is the customer feeling?</i>	Hopeful, but unsure until the plan feels realistic and achievable.	Focused and motivated; may feel challenged if a workout is difficult.	More confident when progress is visible; proud and motivated to continue.
