

Problem-Solution Fit

SMARTBRIDGE / SKILL WALL

Date: 29 September 2026

Team ID: SWTID-2026-3226

Project Name: FitBuddy - AI Fitness Plan Generator using Gemini Models

Maximum Marks: 5 Marks

Problem-Solution Fit Canvas

The canvas connects target users, fitness-planning pains, causes, behaviors, limitations, alternatives, and FitBuddy's proposed solution.

1. CUSTOMER SEGMENT(S) [CS] People seeking structured fitness guidance: beginners, busy adults, home exercisers, and users who want a personalized starting plan based on goals, schedule, and available equipment.	6. CUSTOMER LIMITATIONS [CL] Limited time, equipment, confidence, or fitness knowledge; difficulty matching routines to ability and schedule; uncertainty about safe progression and how to adjust a generic plan.	5. AVAILABLE SOLUTIONS: PROS & CONS [AS] Generic workout apps, online plans, personal trainers, and general AI tools. Pros: many options and expert help. Cons: generic plans, cost, time to compare, or limited personalization and continuity.
2. PROBLEMS / PAINS + FREQUENCY [PR] Users struggle to choose appropriate exercises, organize a consistent weekly routine, and progress toward goals. The mismatch between generic plans and personal constraints recurs whenever goals or schedules change.	9. PROBLEM ROOT / CAUSE [RC] Fitness information is fragmented; plans often overlook equipment, time, experience, and preferences. Users may lack a simple way to turn their own constraints into a coherent, adjustable routine.	7. BEHAVIOR + INTENSITY [BE] Searching websites and videos, trying generic routines, skipping workouts, or repeatedly restarting plans. Frustration is strongest when motivation is low, time is limited, or progress stalls.
3. TRIGGERS TO ACT [TR] Starting a fitness goal, returning after a break, changing schedule, exercising at home, or needing a routine that fits available equipment and time.	10. YOUR SOLUTION [SL] FitBuddy uses Gemini models to generate a personalized fitness plan from user goals, experience, schedule, equipment, and preferences. It presents a structured workout schedule with exercise guidance and plan history for future reference.	8. CHANNELS OF BEHAVIOR [CH] ONLINE: responsive FitBuddy web interface and Gemini-powered plan generation. OFFLINE: users follow workouts at home or in a gym and can refer to their saved schedule and exercise instructions.
4. EMOTIONS BEFORE / AFTER [EM] BEFORE: overwhelmed, uncertain, and discouraged by conflicting advice or generic routines that do not fit personal constraints. AFTER: more organized and motivated, with a practical starting plan that reflects the user's goals and schedule. FitBuddy provides general fitness information, not medical diagnosis or individualized clinical advice.
